Sports Writers Proclaim Rogers' Defense Outstanding

Heading the Pirate lineup were twenty-one returning lettermen. Among these were two 2-year lettermen, Ray Paxton and Mike Kondo.

Rick Simmons, quarterback, engineered the squad through seven straight games without a defeat. The lone loss came at the hands of the Gonzaga Bull-pups. That game, one of the most exciting of the year, brought out the true spirit of Rogers. Down to the final gun the Rogers' Cheerleaders and Yell Dukes kept the spirit as high as it had been all year long.

Breaks made the game. A touchdown by Lyle Pete and a 74 yard run by Mike Kondo were called back because of penalties. A much disputed fumble of a pass led to Gonzaga's first touchdown. Rogers' score came on a 40 yard pass to Al Hodneland. Final score, in Prep's favor, was 13-7.

League's leading rush

Kondo scores first touchdown of season.

ike Kondo, rambles through Shadle's offensive line.

Exciting, awesome, electrifying, are some of the words that best describe the 1968 city football champions.

Part of the heart of the Rogers' team was to be found in the hard-nosed defensive giants. During the season, thunderous ovations encouraged the rock-ribed defense and their sensational play. An important part of any defense is pride. Pride in oneself and pride in the other members of the team.

The cry of "State 68" echoed through the halls of John Rogers. The cries were those of these football players, the students and all other Pirate supporters.

Head Coach,
Larry Coleman

Shadle reception is in vain as "Scotties" fall to Bucs 13-2. Wellman, Paxton and Kondo defend.

Simmons escapes potential Shadle tackler.

The year of 1968 was a truly successful football season. There was a team effort between students, players, coaches and faculty.

The 8-1 record with 7 consecutive wins will give future teams a tradition to maintain and enhance.

The first signs of a City title came during the Christmas Tournament. With the help of first string All-Tourney choices, Dave Wood and Rick Simmons, the Pirates held off a last minute Shadle rally to defeat the Highlanders 55-53.

In other tournament games, Rogers beat Cheney 66-44, and North Central 63-47.

The success of the 1969 Pirate Wrestling team was the culmination of a long season of dedication, devotion, determination, desire, and the willingness of every boy to consistently give his best effort in every way, in the drudgery of three months of daily practice and in the actual test of the match itself.

It was this type of dedication, devotion, determination, desire, and willingness that resulted in a City-Championship, Sub-District and Tri-District Championships and a strong third-place showing in State Tournament competition. It will continue to be this type of Rogers' tradition that will inspire future wrestling teams to aspire to the highest prize—the Champions laurels.

Chess Club Enjoys Intellectual Challenge

Rogers' Chess Club is for students who like the intellectual challenge of playing chess. Members compete among themselves and with chess clubs from other schools.

To play chess well, each competitor must look ahead and anticipate his opponent's plan of action. He learns to recognize possible basic strategies and rally defenses from early moves. This type of thinking can help train members for future competition in the business world.

Chess Club meets on Monday and Thursday each week during the school year and holds periodic tournaments with Shadle Park, Lewis and Clark, and North Central.

First semester officers were: Greg Wilson, president; Dick Newell, vice-president; Steve Emerson, secretary; Bill Palmer, treasurer.

Aviation Club Flies High

Advisers and students gather at Felt's Field.

Rogers surely doesn't look small inside.

"Pilot to co-pilot; A—O.K.!"

Rogers' Aviation Club was organized in 1958. Its purpose is to give the air-minded students at Rogers High School an opportunity to study and discuss the fascinating subjects of aerospace and flying. They also have the opportunity to do some actual flying.

The club meets twice a month to discuss such subjects as aviation and aerospace, and to see interesting films on those subjects. The students become "air conditioned."

The students manage to fly three or four times a year. This flying is done at Felts Field and includes a cross country flight to some town approximately one hundred miles away.

The club makes field trips to the Spokane International Airport, the Air National Guard, Fairchild Air Force Base, and the Air Force's Mica Peak Radar Installation. This year members also visited the Nova Rocket Club and the Spokane Sport Parachute Club.

Pirettes, a group of junior and senior girls, perform regularly as the official marching and dancing unit of John R. Rogers.

Pirettes also include the cheerleaders and majorettes. The organization acts as a service and pep group for the school.

Pirettes hold several traditional banquets honoring the new officers and the different sports' teams. They also march and dance in the half time shows, the all-city gymkhana, and in the Lilac Parade.

Beth Noben was the first "Pirate Girl" at the old Hillyard High School. She led songs, using a small replica of a baton.

Originally, the Pirate Girls led songs and didn't march. The club grew to six song leaders, and in 1935 twenty-five girls, selected from many volunteers, formed the first marching unit.

Finally, in 1936, the 48 Pirettes combined with the band to make a marching unit of 98.

Now, the Pirettes perform regularly to routines worked out by the girls and Mrs. Vernice L. Travis, adviser.

Ski Club was formed to promote enthusiasm in skiing and to bring together fellow skiers for fun and learning.

The purpose of FBLA is to develop competent, aggressive business leaders and create more interest in business occupations.

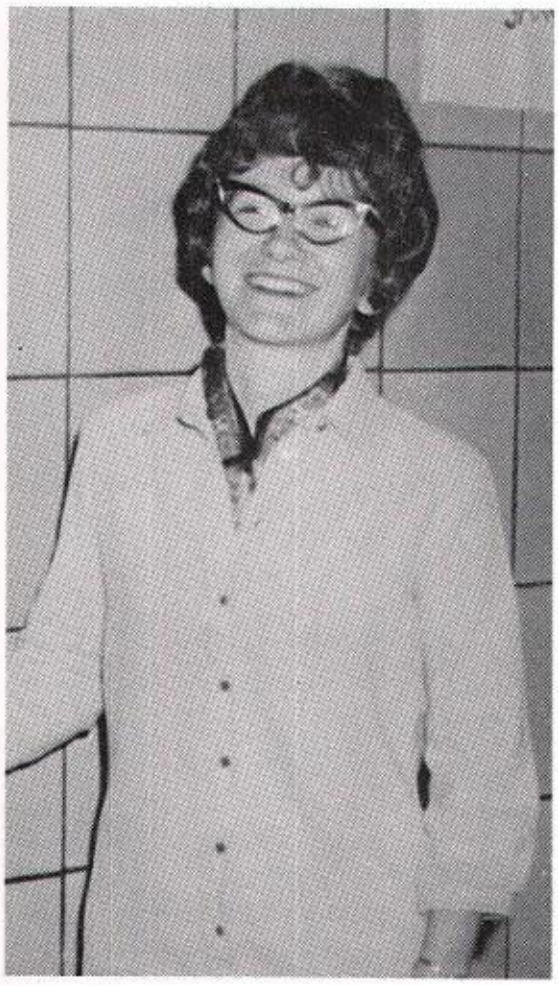
Officers for FBLA are: Brenda Davis, Bonnie Marshall, Sondra Cordes, Kathy Pascuzzi, and Debbie Lott.

FTA members are: LeAnne Potter, Debbie Harris, Suzanne Sutton, Jean Wilson, Bonnie Gamble, Cheryl Smith, Terry Hall, Vickie Hunt and Janet Moseng.

FTA provides an opportunity for interested students to learn about the profession of teaching and to help them make a decision about their future career.

Some of the activities include tutoring with the members actually doing some teaching. They also have guest speakers.

It is the hope of FTA that the club will guide members to the goal in life for which they are best suited.



Miss Copple serves as club adviser.

Purpose of the club is to promote a growing appreciation for the joys and satisfactions of homemaking, emphasize worthy home membership, encourage democracy in home and community life, foster the development of creative leadership, provide individual and group recreation, and further interest in home economics.

As a new club this year, Homemakers of Tomorrow came under the leadership of: LeAnna Potter, president; Candy Stratford, vice-president; Terry Reedy, secretary; Shelley Holten, treasurer; Karen Disciascio, sergeant-at-arms and Mrs. Mavis Procter, adviser.

A member of the Rooters, Tank Wilkerson, laughs at defeat.

Mr. Pelo listens to Rooters shouting directions at team.

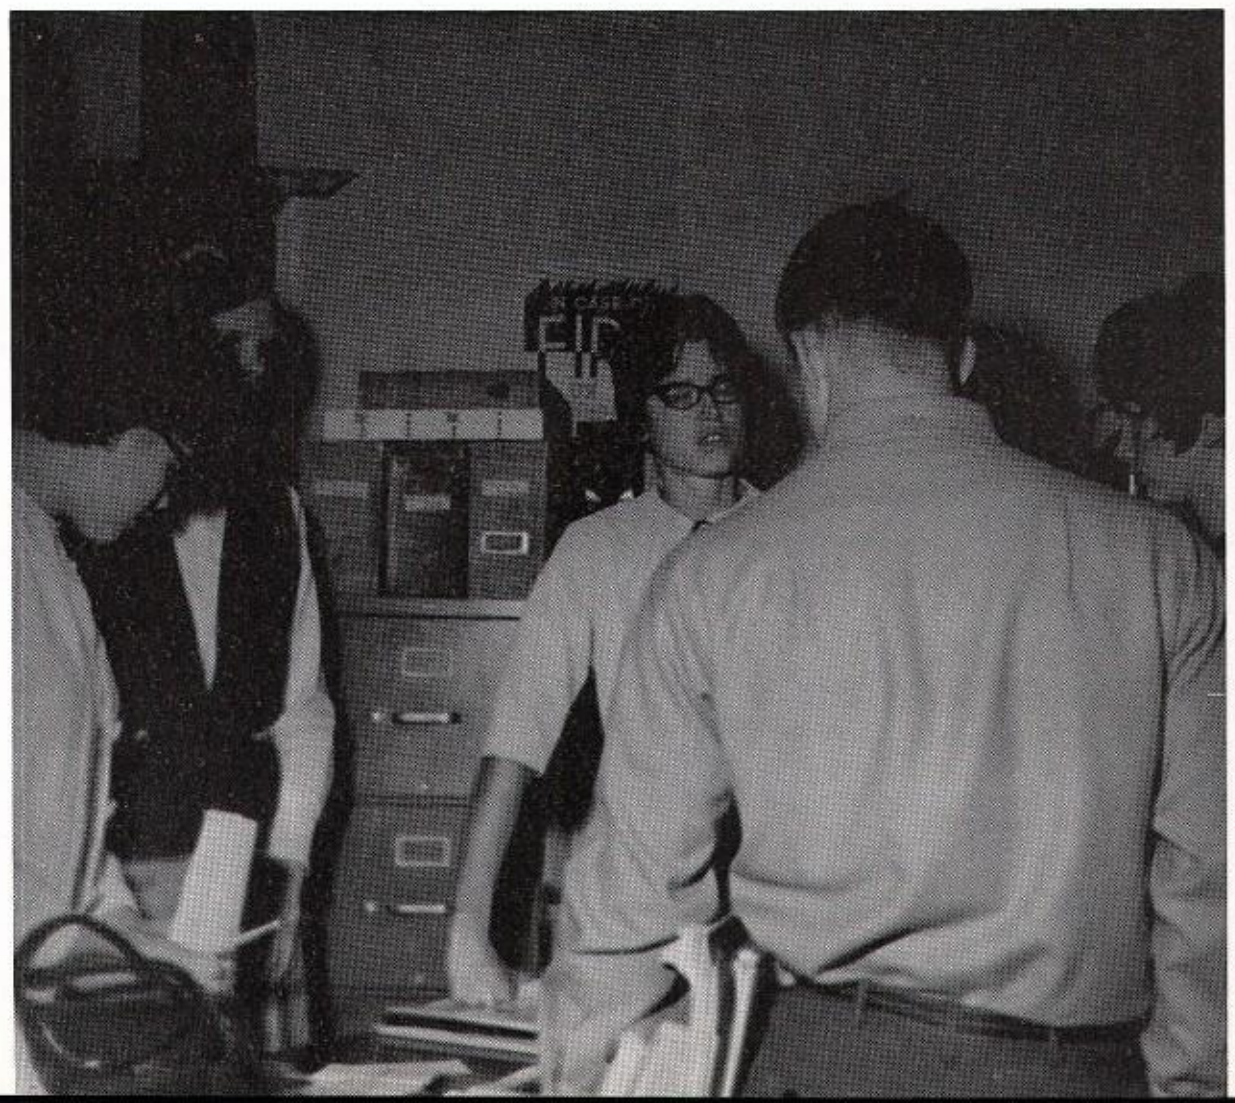
A new club was formed this year called Rogers' Wrestling Rooters. It was designed so that the boys could have an organized cheering section with uniform yells.

Rogers third consecutive City Wrestling Championship was cheered on by this group with the aid of the adviser, Mr. Dale Brannon.

Biosophy Club Teaches Elementary Students About Animal Life

Biosophy Club was formed this year to share the secrets of animal life with elementory students. Members of the club help teach first and second graders about the "era of life." Miss Heckt, advisor, hoped to reveal the knowledge of life to children by this system.

"We'd better operate."



Miss Heckt demonstrates "how to teach with an iron fist."

Rifle Club Aims for Responsible Gun Use

Top row: Lynn Hurd, Jerry Barnhart, Ed Malek, and Bob Michener. Bottom row: Max Oliver, Tom Strawn, Jerry McGinley, and Dwight Pauley.

Rogers' Rifle Club opened the new year with hopes of a victorious season against other schools' rifle teams. Long hours of practice accomplished this goal.

Contrary to popular belief, a good shooting record is not Rifle Club's primary purpose. The club also wants to insure and safeguard the responsibility of gun use.

Rules and regulations are diligently followed by the club, and members hope not only to enjoy the privileges of responsible gun use, but to relate them to others.

Rifle Club members target practice to improve marksmanship.

CHEC Provides Vocational Training

Shelly Ethredge assists an elderly lady.

CHEC students aids both men and women.

CHEC—stands for Community Help Education Class.

Home Economics skills are used and converted into a way to earn a living. Each year, 30 girls who are seniors may be accepted into the class and a job training situation. Two credits a semester are earned, and four work references are acquired as the girls move from training station to station throughout the year.

Girls are hired as they qualify and as a wage earning spot presents itself.

Food service, laundry aides, health care, child day care centers are some of the areas of training now offered.

Mrs. I. Moe

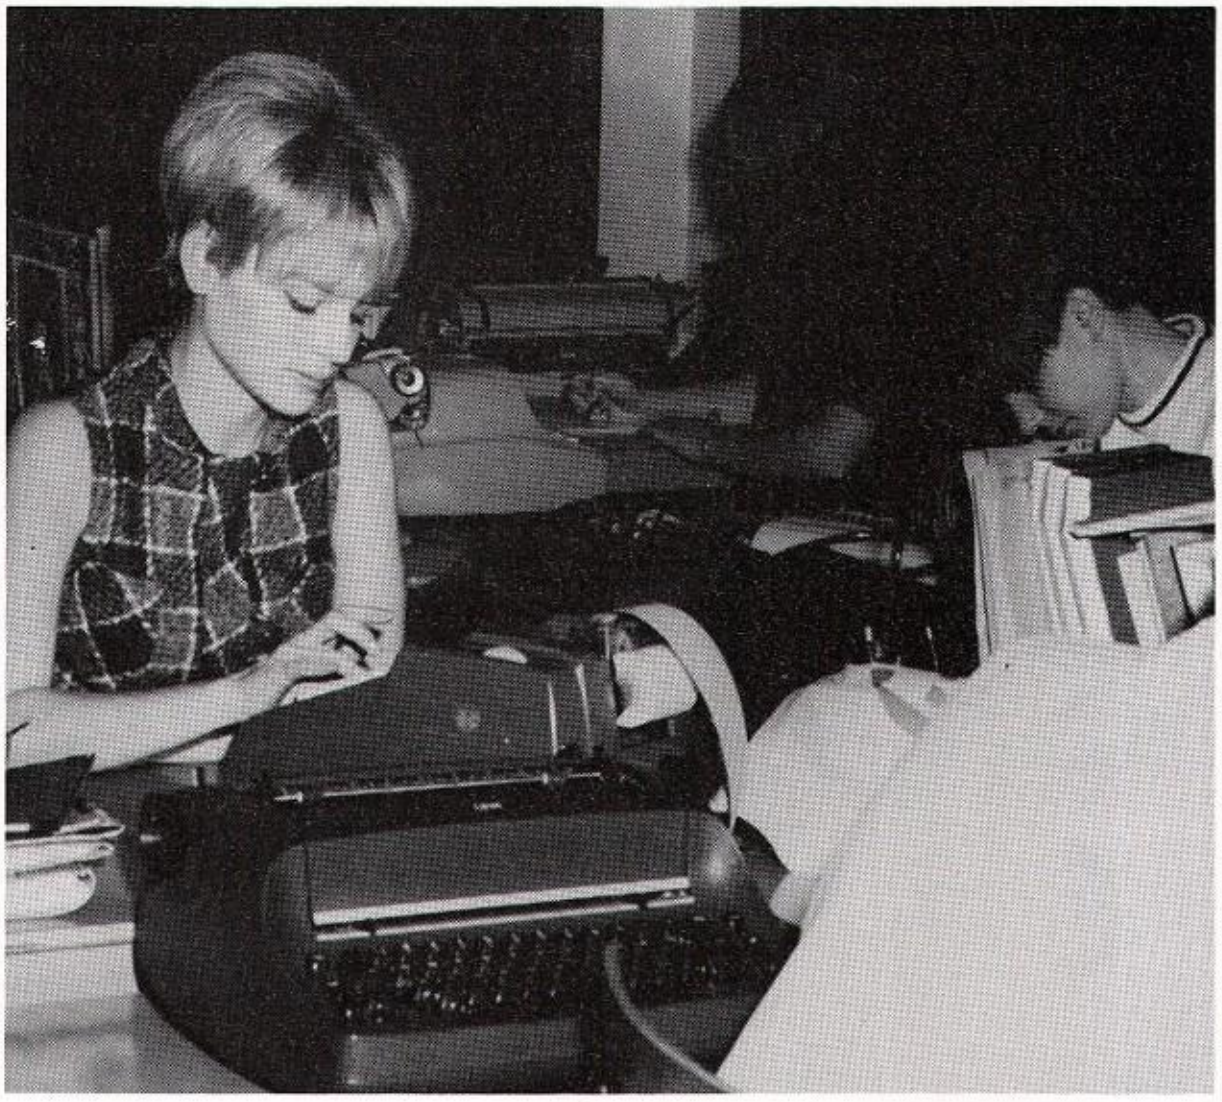
Secretarial science is the second year of office training, which is carried on in a three-hour block of time. The work is presented in an integrated program covering 19 areas.

The block or intergrated approach to the teaching of vocational business subjects does not devote a certain amount of time to the building of any one skill—rather, each problem that is presented to the students includes several skills blended together.

In addition to the regularly assigned classroom problems, the students in the class act as a secretarial pool and are on "call" to take dictation, make out reports, make business phone calls, do duplicating, and carry on other business procedures for members of the faculty and administration.

Becky Young uses adding machine in secretarial block.

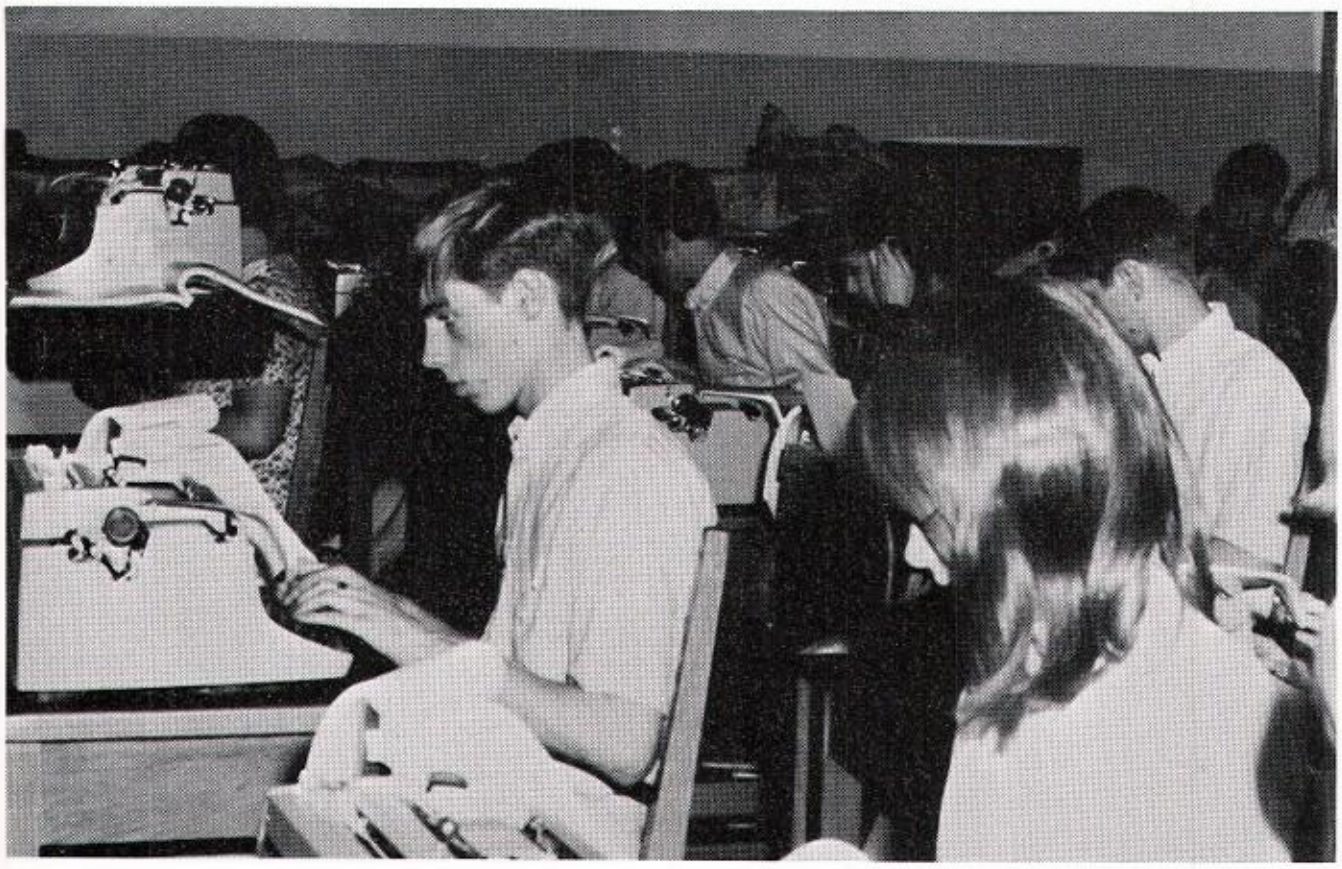
Linda York demonstrates her ability at the adding machine.



Business Classes Teach Employment Skills

Mrs. Church dictates letters to business students.

Business people learn typing skills.



Boys' PE engages in many difficult sports.

Classes in PE cover the following units: Tennis and speed-a-way for a fall outdoor activity, volleyball, gymnastics and tumbling, basketball, softball, marching and golf.

In addition all classes bowl at Diamond bowl-juniors twice weekly, freshmen and sophomores once a week.

Physical fitness tests are given in the fall and again in March.

Pirettes meet fourth period daily. They are selected each year and consist of juniors and seniors. It is a service organization as well as a performing group for various athletic events.

There is nothing like a good game of volleyball to ease the tensions of school.

Mathematics Stimulate the College-Bound Student

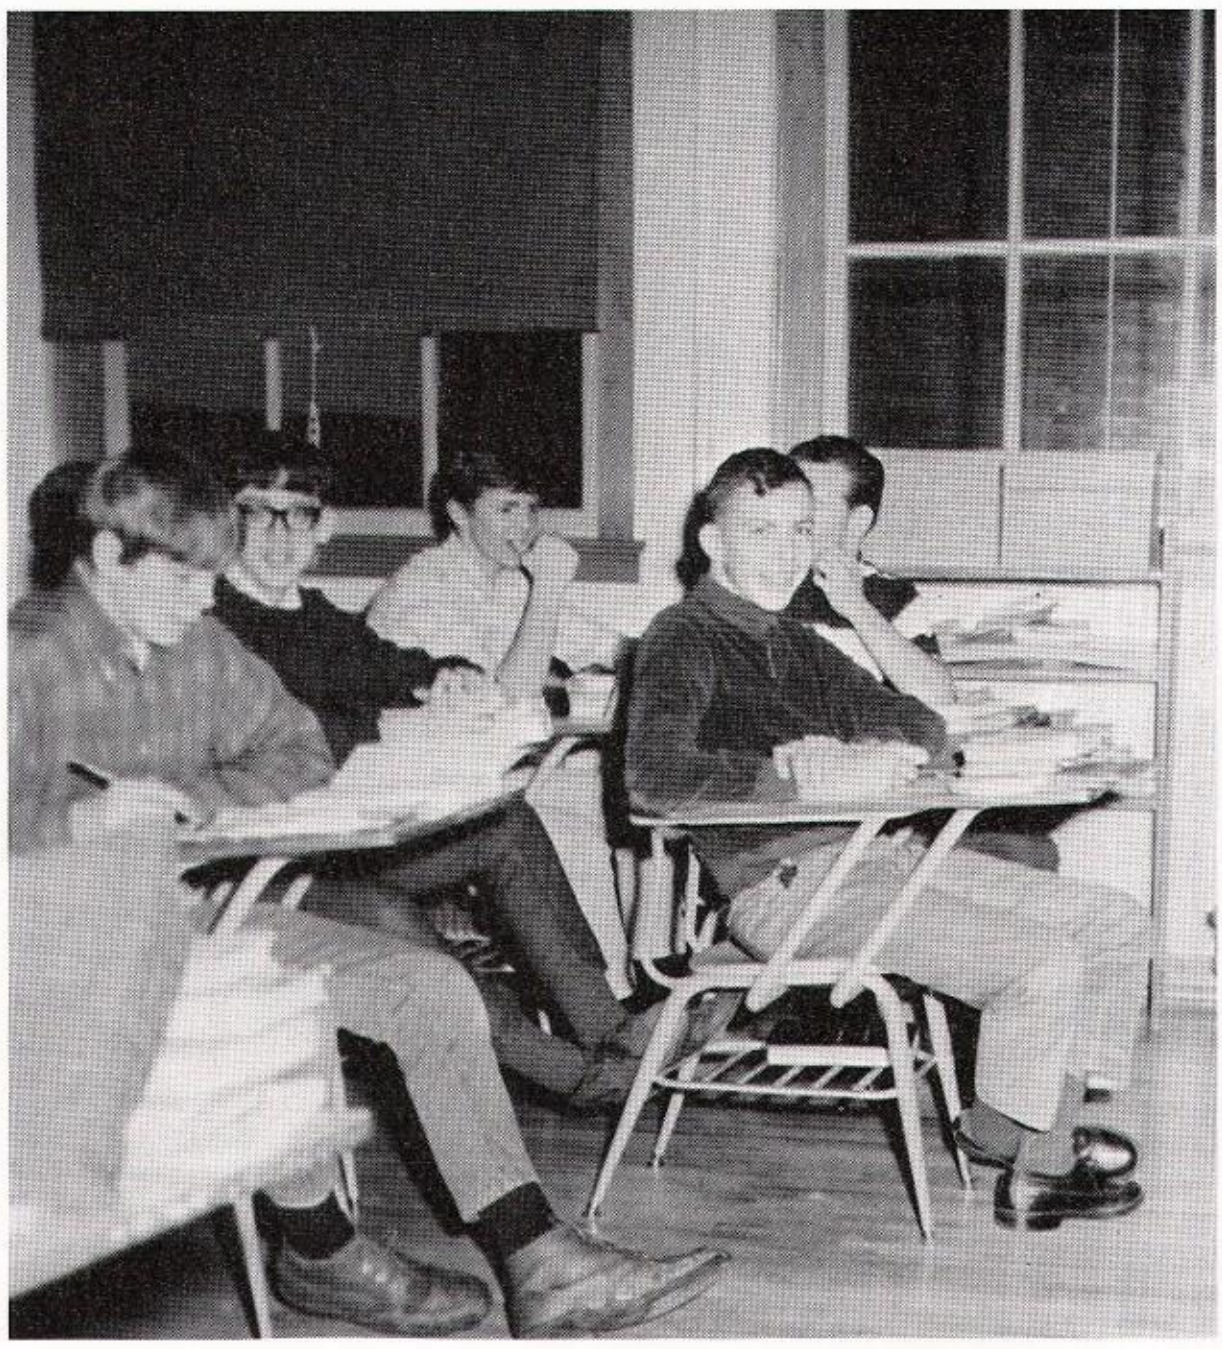
The main objectives of the mathematics teachers at John R. Rogers High School are to encourage, stimulate, intrigue, and educate the terminal as well as the college-bound student to such a degree that both groups may find themselves with sufficient mathematics for daily living in a changing and highly geared society.

Every student at Rogers is given the opportunity to achieve the mastery of the mathematics commensurate with his own ability. One can take modern algebra, general mathematics, modern geometry, intermediate algebra and advanced mathematics.

A graduate of high school may be admitted to certain universities and colleges with two years of mathematics, excluding general mathematics, but it is better to take three years of mathematics to insure entrance.

Al Ostvess

Students listen attentively to Math teacher.



Science Offers Variety of Courses

Biology, one of several laboratory courses offered at Rogers, is usually taken in the sophomore year. It supplies basic knowledge of plants and animals, using current, new exploratory techniques, through the laboratory approach.

Chemistry is the study of elements, their reactions, and how they react to the world around us.

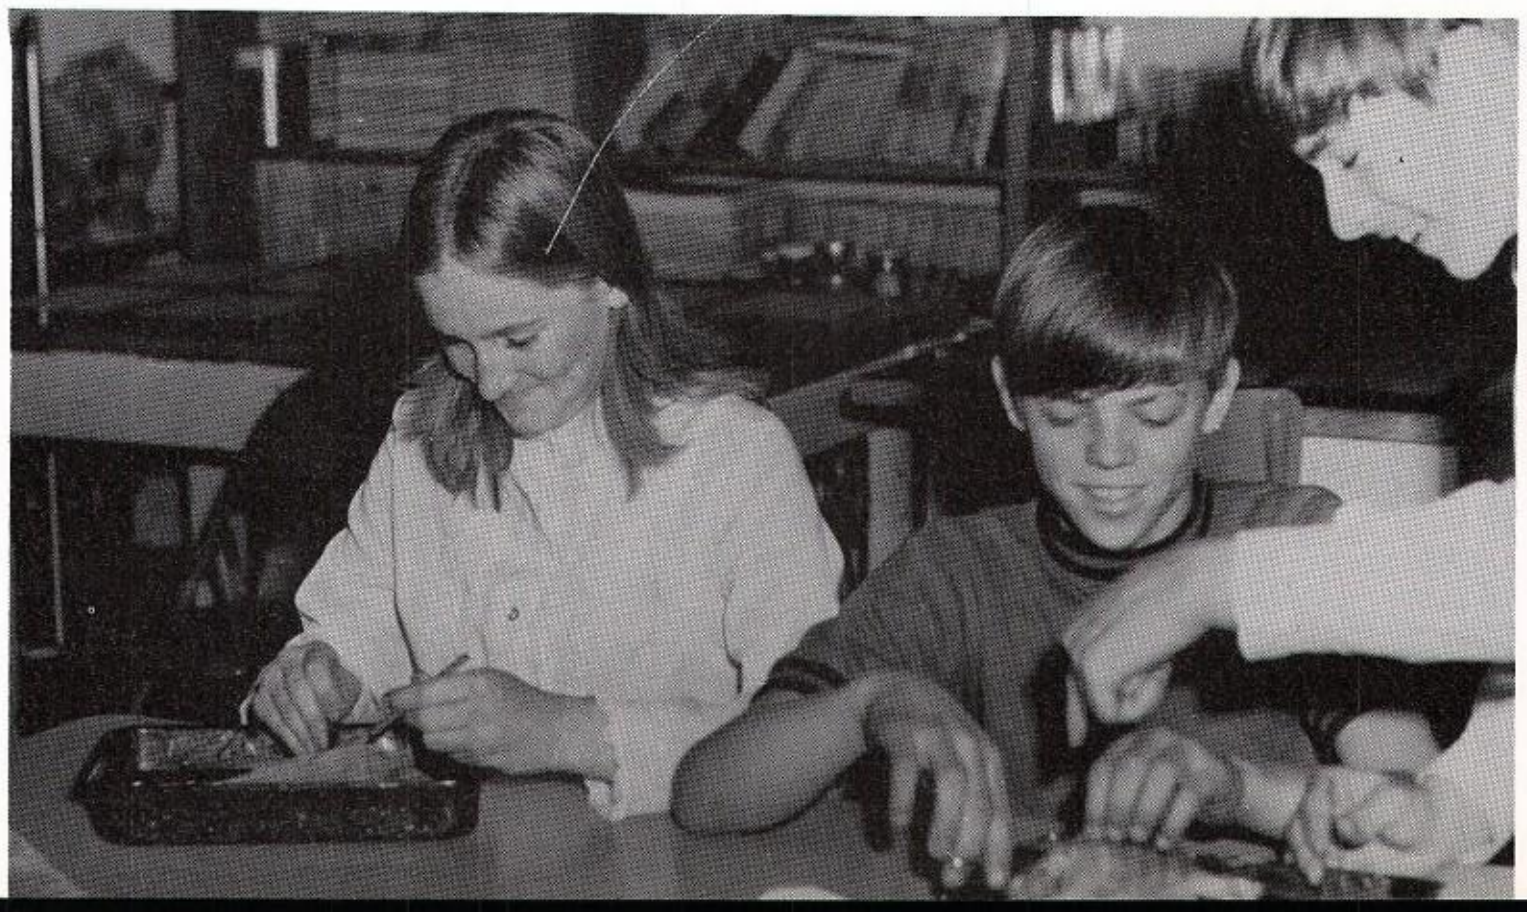
Integrated Math-Science combines the math and science in a one year course concerning topics in physics, chemistry and mathematics that are felt to be important to an understanding of the natural world in which the student lives.

Physics is a course designed to give the student a good comprehension of some of the major concepts of physics, such as: light, motion, force, electricity, heat, magnetism and atomic theory.

Through the use of textbook and laboratory experiences the student learns about the properties of substances and energy of change in the substance.

Kathy Stone displays her enthusiasm in biology class?

It's not fried; it's shake and bake.



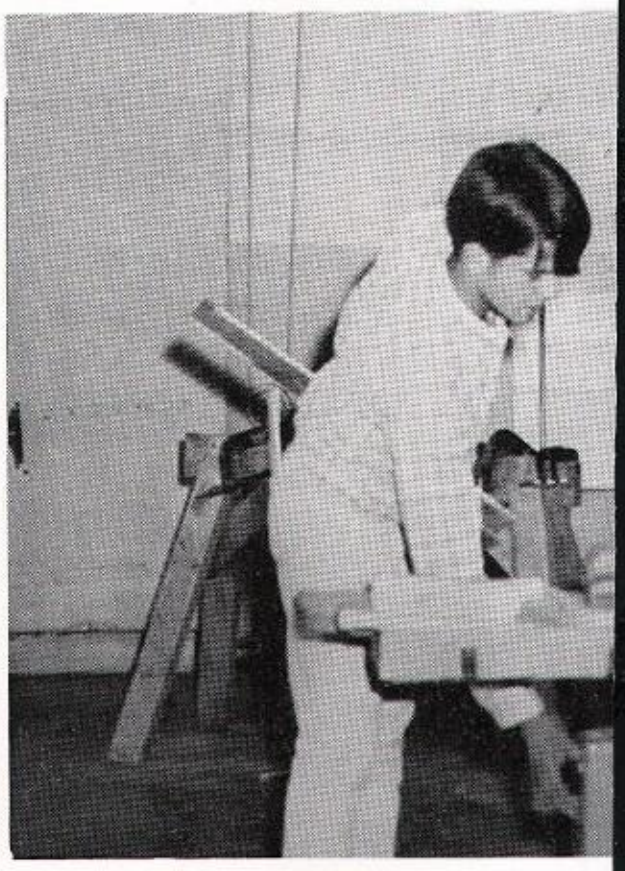
Mr. Johnson aids students in various phases of woodshop.

We live in a highly technical age today. Our home, our cars, and even our lives are complex and governed by exact systems of measurements and scientific laws. The age of unskilled and low income jobs is almost over. In order to exist in today's world we must know how to work accurately and how to figure carefully.

Industrial arts at Rogers is doing a two-fold job for the boys who are enrolled in shop classes. They are given a chance to explore various fields and find out for themselves whether they have likes for a particular job or field of work. Secondly, they are taught the use of tools, how to apply the mathematics involved, and something about the materials in the particular field, and the job opportunities in this occupational choice.

In addition to finding occupational choices, industrial arts points to leisure time activities and hobbies. Today thousands of people are putting together their own hi-fi and stereo sets. Drafting has helped many former students to plan their own homes.

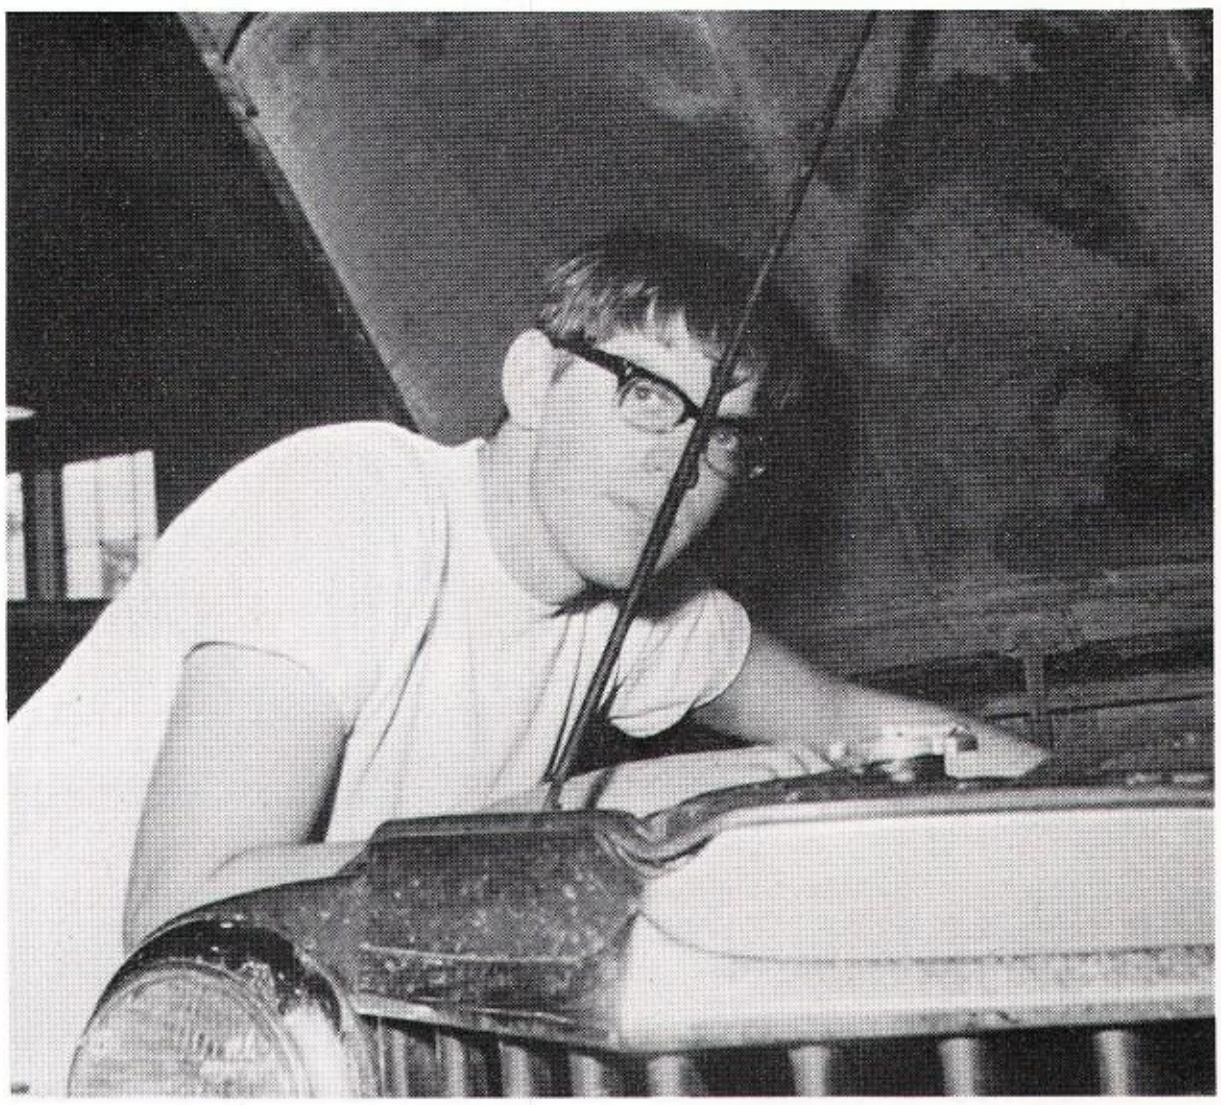
W.H. Chapman



Stanley Morgan shows Scott Herrington how the jointer is operated.

Mr. Johnson teaches Alan Hammer woodshop techniques.

Industrial Arts Prepare Boys for Future Employment



Keith Wachsmuth works intently under the hood.

Self-expression Sought Through Art

Rogers' Fine arts department offers both the facilities and opportunities for students to express themselves through the various areas of visual art.

Courses are offered in basic art, crafts, sign painting, sculpture, and commercial art. Emphasis in all art classes is on individual involvement and expression. An awareness of beauty and good design in life as well as the successful application of the art elements to personal projects and experiments is stressed.

The art field is unlimited both commerically and as an individual means of expression and enjoyment.

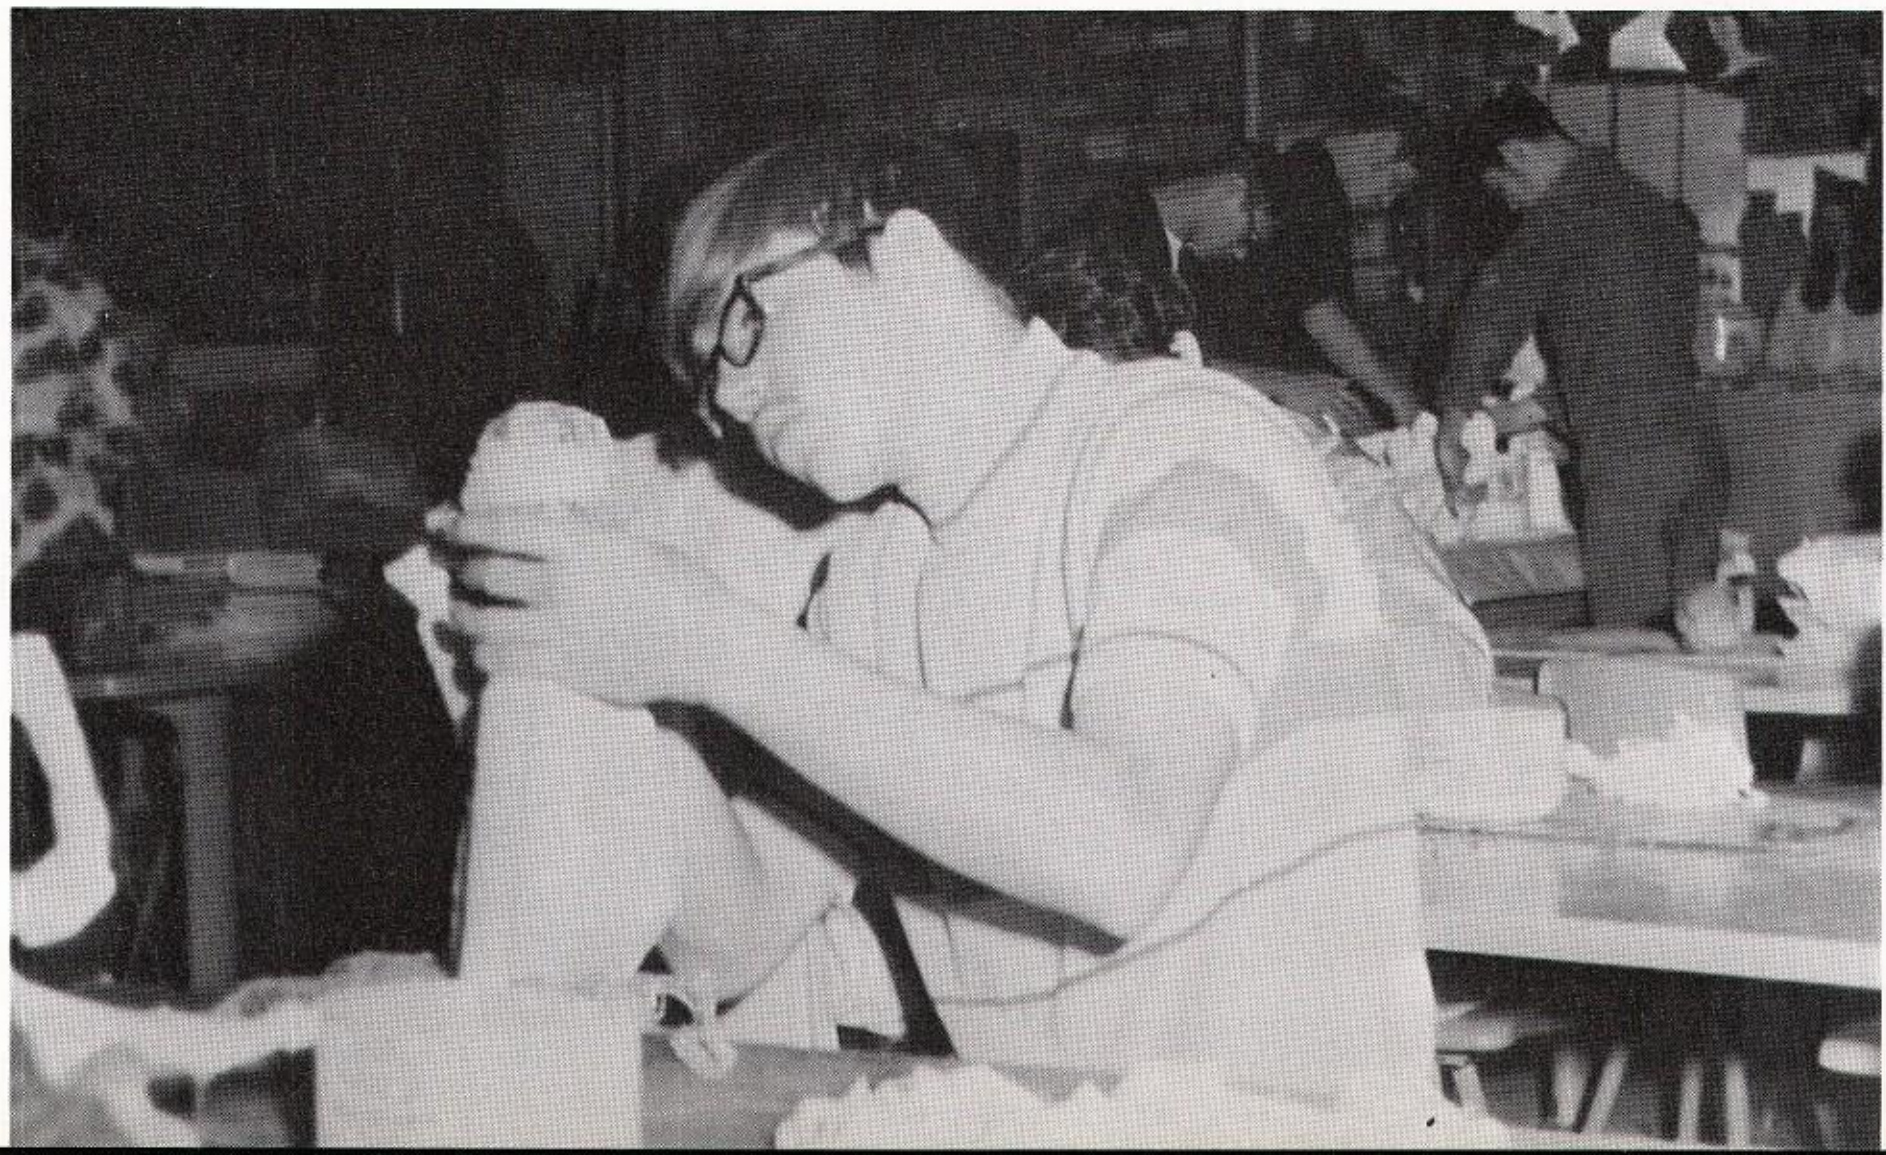
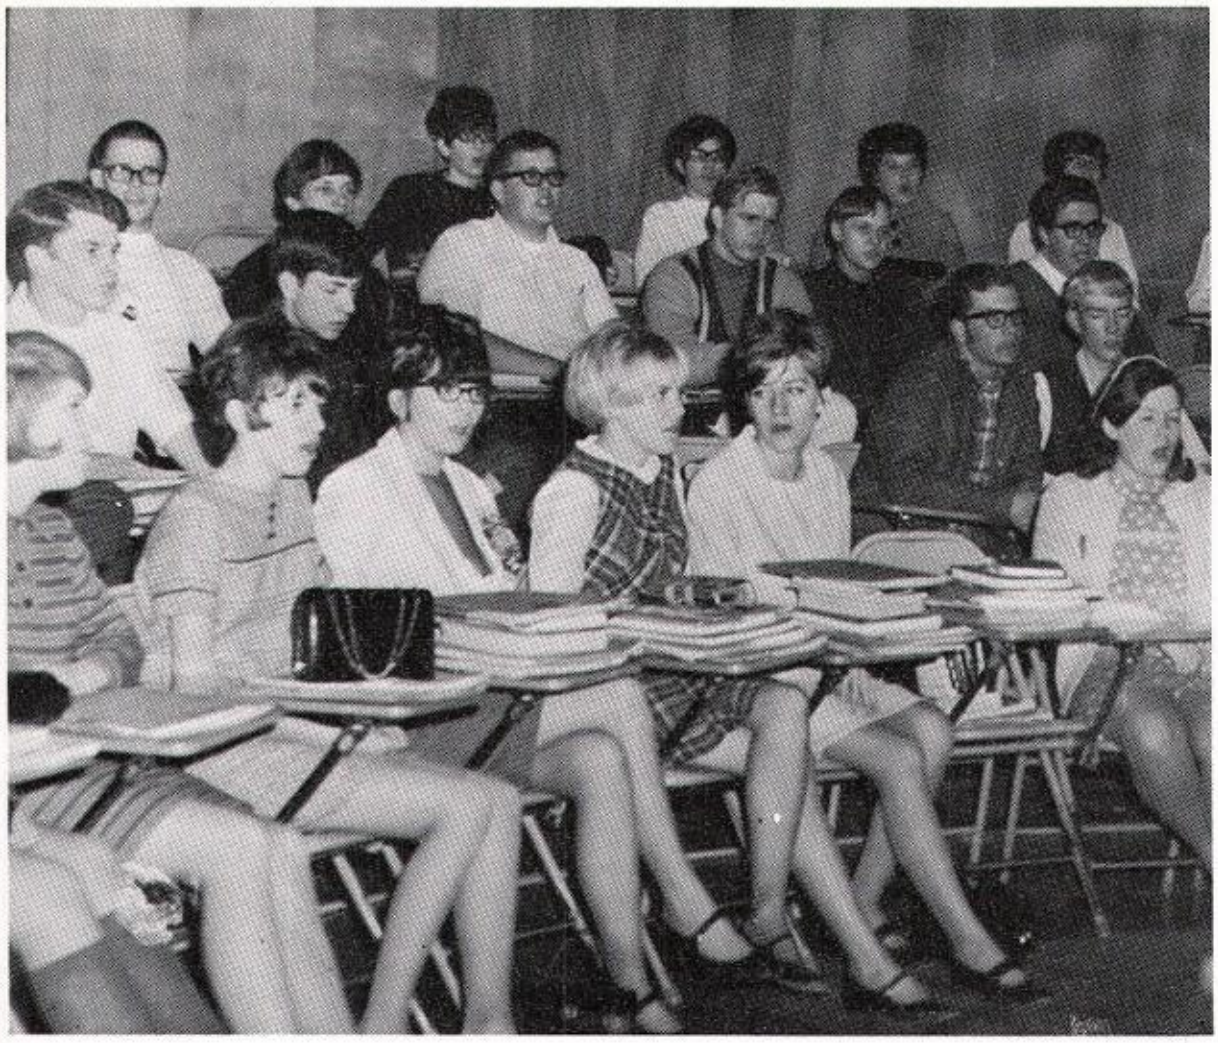
Ron Glowen works like a pro.



Music Enriches Students



Do . . . re . . . mi . . . fa . . . so . . . la . . . te . . . ??

The choir listens to Mr. Brigham's instructions.

Rogers High School lives with music. Approximately, one third of the students actively participate in music sometime in their high school life. The remaining students use music to enrich their lives, add color, excitement, and heightened meaning to school activities.

The predominating philosophy of the music department is that by performing music well, those who create it learn much more about music than do those who merely use it or study about it. There are nine organized music groups which perform in school, at concerts, convocations and in the community to bring music to the students' lives.

Forest Brigham

Mr. Brigham directs the choir.

Language Classes Break Communication Barriers

Students work in language lab.

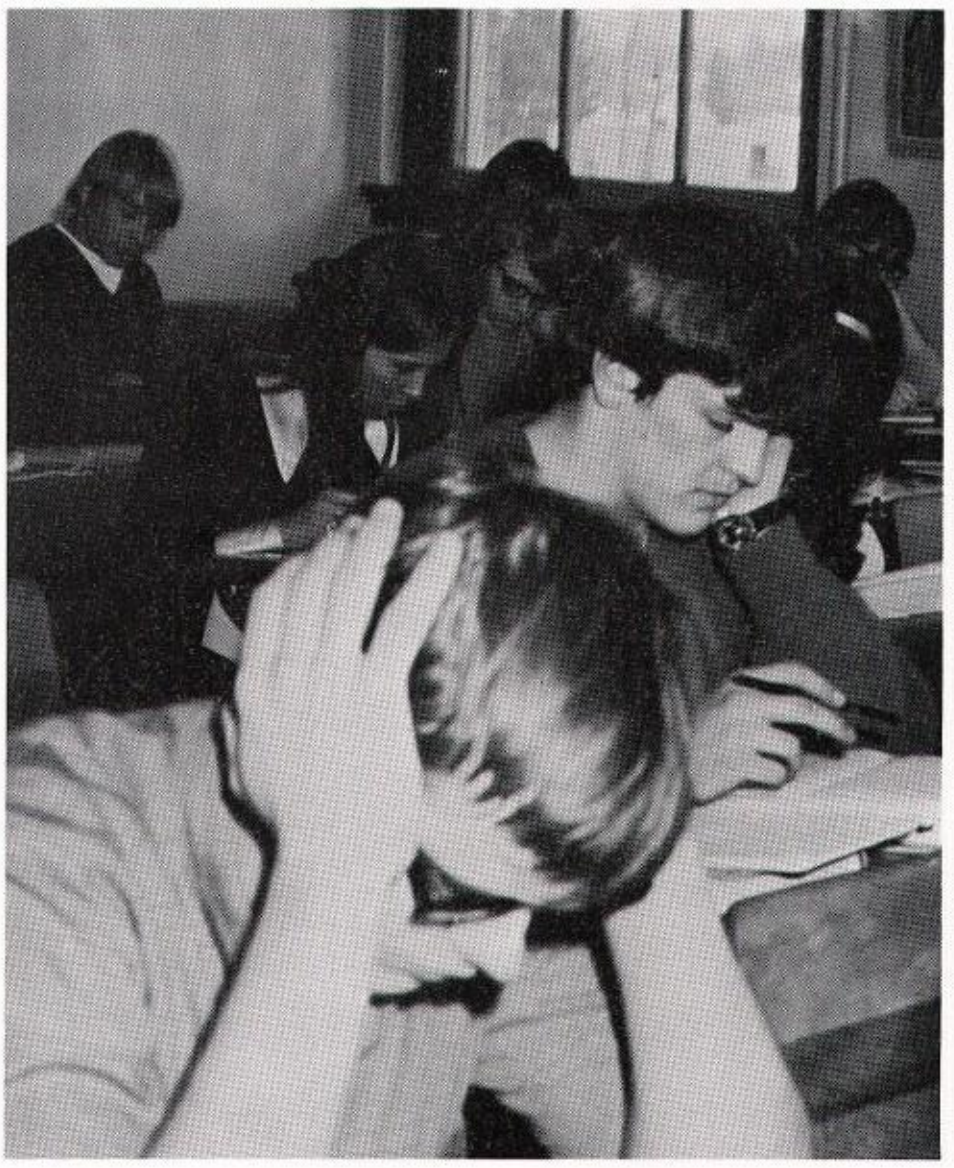
Four language classes are offered at Rogers. Several techniques are used in teaching these classes.

New additions to the language lab have aided the department. This lab enables students to work more on oral conversation.

Latin-German club and Spanish-French club have also given students a chance to learn more about their language.

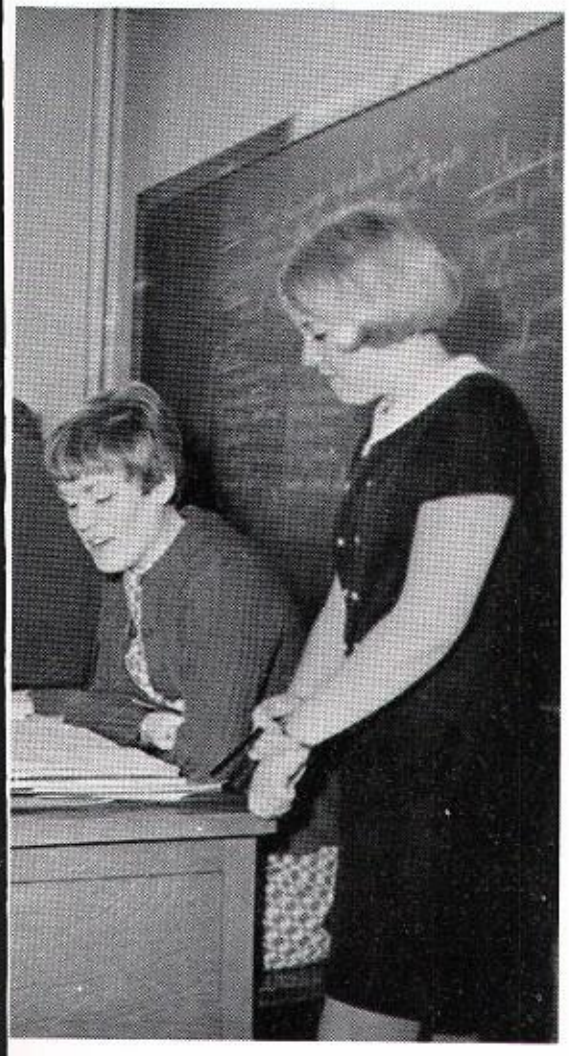
Mrs. Compton listens to students in lab.

Language students study in class.

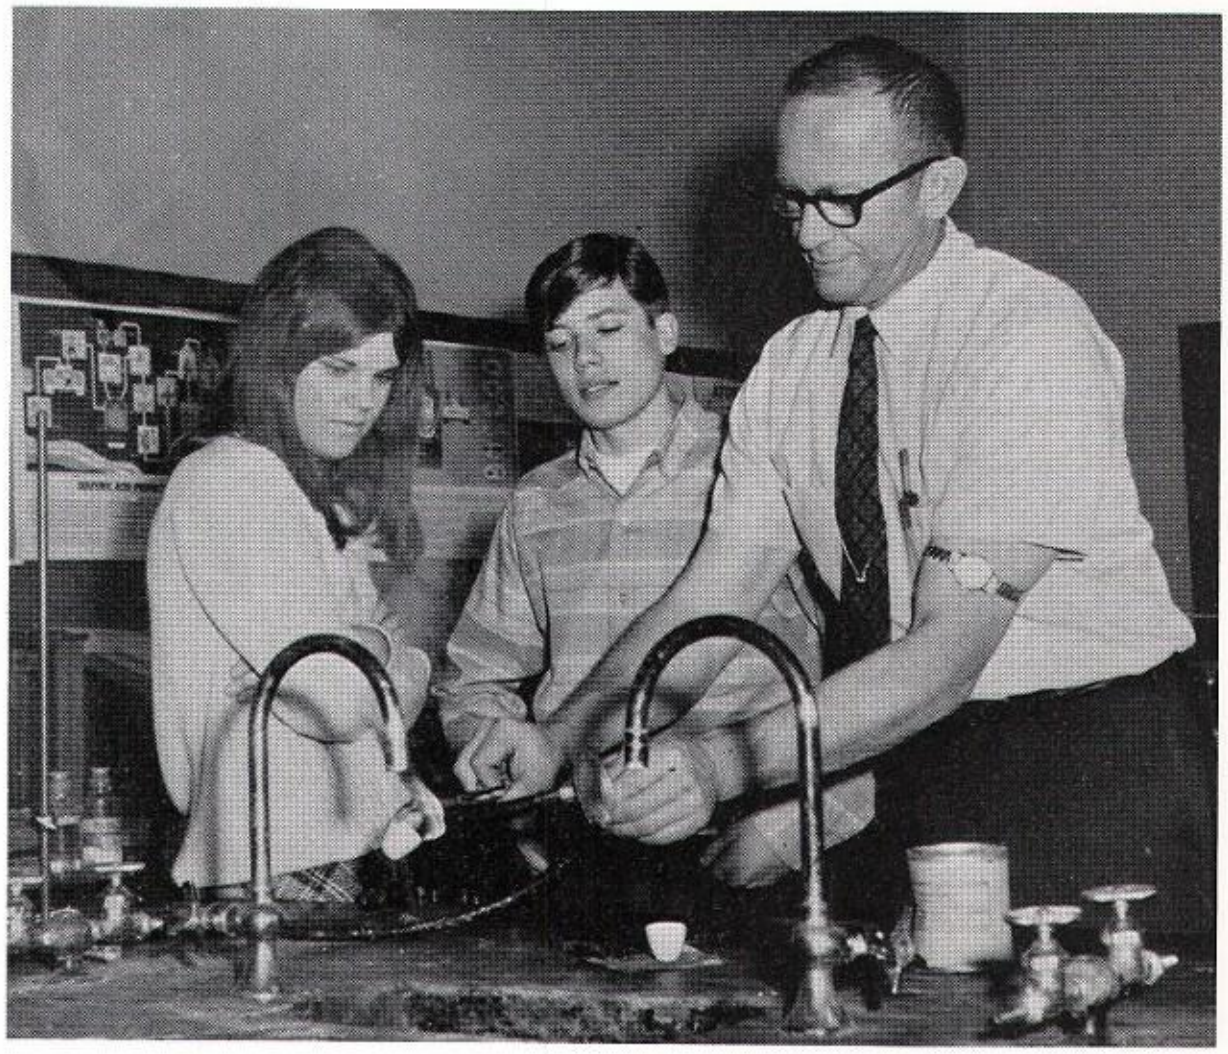


Alice Rhodes shows tumbling techniques to underclassmen.

Student Teachers Instruct Classmates

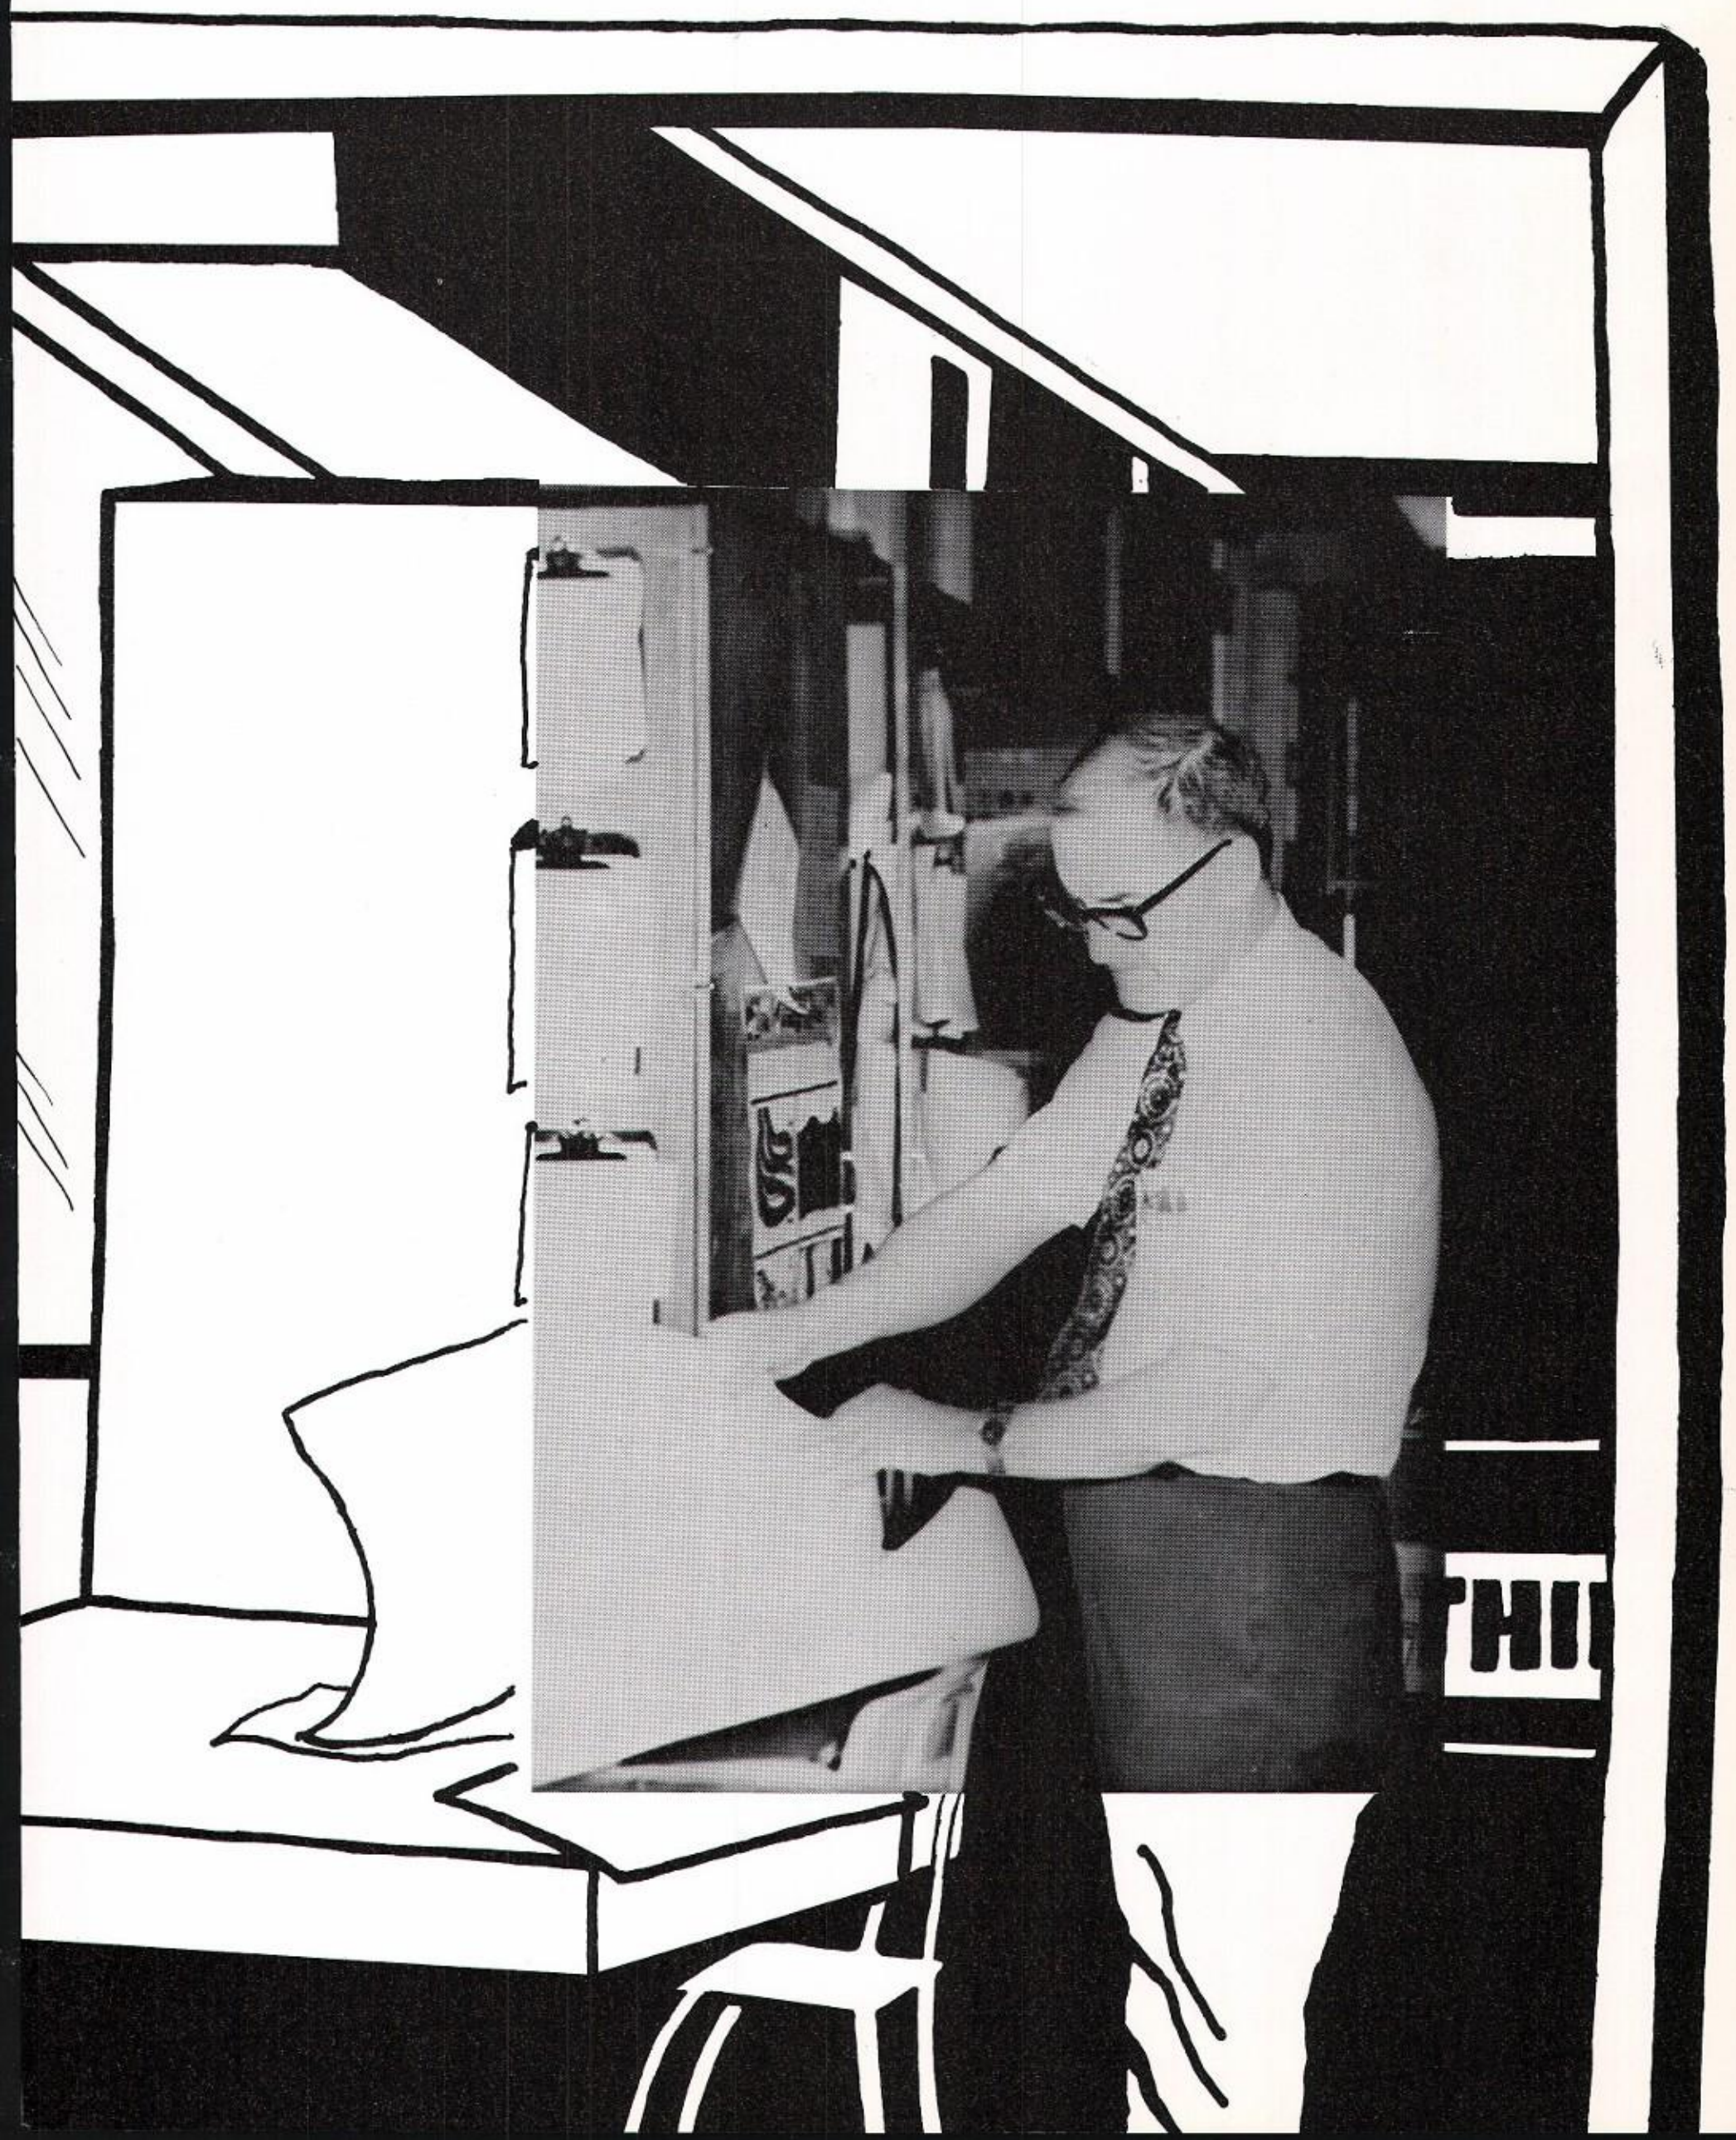


Miss Hanneman discusses the day's assignments with Judy Baumgartner.



Karen Griffin and Francis Powers are shown the proceedure for experiment by Mr. Carroll.

FACULTY



Administration Heads School

Mr. Hutton, Mr. Elsensohn and Mr. MacGown are engrossed in the daily problems facing Rogers High School.

As principal of John R. Rogers High School, Mr. Paul C. MacGown has the job of seeing that all phases of the school, academic and extracurricular, function properly. Endurance, understanding, knowledge, and leadership are only a few of the qualities that enable Mr. MacGown and Vice-Principal Mr. James J. Elsensohn to fulfill their administrative duties each year.

John Rogers is fortunate to have the able assistance of Mr. James Hutton, administrative intern. Together, these three men solve problems and make decisions for the improvement of the total program offered at Rogers High School.

As Rogers' Administrative Intern, Mr. James R. Hutton has a chance to become acquainted with many different phases of the high school environment.

The year, 1969, was a successful one for John R. Rogers High School. Many years from now, the pages of this yearbook will invoke memories of fun-filled days at Rogers: Boisterous football games, a noisy cafeteria and the laughter as students passed through the halls.

The days at John R. were more than carefree fun. There was also responsibility: Cramming for tests, whispering in the library and trying to make the grade for another six weeks.

For the Treasure Chest staff, creating this annual was an added responsibility. Through their untiring efforts, this yearbook will be a vivid reminder of high school days.

Pat Patton,
Editor-in-
Chief

Tony,

I suppose I should write something real mean but you wouldn't want your kids to read that kind of stuff. Well Good Luck anyway and watch out for those horses. Bye,

Tony,

It's been fun having you here. Hope you have a safe trip home. Remember to keep in touch and write sometime. Hope to see you next year when I come to Silverado.
